

FREE TRAINING FOR SMALL & MID-SIZE MANUFACTURERS

**CYBERSECURITY STRENGTHENS
U.S. MANUFACTURERS**

Cybersecurity protects the confidentiality, integrity and availability of your information.
A cybersecurity program provides advantages for small and mid-sized manufacturers:

- Improve Recovery Times After Disruptions**
- Avoid Potential Losses**
- Protect Valuable Data**
- Ensure Employee and Customer Privacy**
- Mitigate Risks**

Saturday December 9th - 8AM - 2PM

California Steel Conference Center, Fontana, CA A DEADLINE IS LOOMING

All Department of Defense (DoD), General Services Administration (GSA) and NASA contractors must meet the Federal Acquisition Regulation (FAR) minimum cybersecurity standards by December 31, 2017—or risk losing federal contracts.

If you're like many businesses, you may not know what is expected or even how to get started. Not to worry. We have assembled a team of cybersecurity experts to determine if you are compliant with the standards described in NIST Special Publication 800-171

- **What is Risk Management Framework (RMF)?**
- **Protecting Yourself from Human Vulnerabilities**
- **Access control**
- **Awareness and Training**
- **Audit and Accountability**
